### **Department of Health and Social Services**

### **Mission**

To promote and protect the health and well being of Alaskans.

### **Core Services**

- Provide access to health care services for Alaskans in need.
- Protect children from abuse and neglect.
- Provide support to Alaskans unable to live self-sufficiently.
- Preserve and promote the state's public health.
- Reduce the number of Alaskans afflicted with alcoholism and substance abuse.
- Improve and enhance the quality of life for Alaskans impacted by mental disorders.
- Hold juvenile offenders accountable for correcting their behavior.

### **Performance Measure Detail**

(1) Result: Outcome Statement #1: Reduce reliance on state general funds for as many DHSS programs as possible.

Target: Reduce State GF, Increase Federal Funds

Measure: Percentage state GF is to total budget and percentage increased Federal.

% of State GF is to Total Budget and % Increased Federal

| Year | GF        | FED       | OTHER     | TOTAL       | YTD Total |
|------|-----------|-----------|-----------|-------------|-----------|
| 2002 | 512,943.7 | 668,997.4 | 120,717.2 | 1,302658.3  | 51.4%     |
| 2003 | 525,846.6 | 773,886.9 | 144,286.5 | 1,444,020.0 | 53.6%     |
| 2004 | 525,211.2 | 890,841.7 | 220,049.7 | 1,636,102.6 | 54.5%     |

**Analysis of results and challenges:** DHSS has increased federal funds over past 3 years. General fund portion of department of budget has gone from 39.3 % in FY 2002 to 32.1% FY 2004.

### (2) Result: Outcome Statement #2: Ensure Alaskan children are healthy.

**Target:** Increase # of 2 year olds who are fully immunized. **Measure:** Rate of change in 2 year olds who are fully immunized.

### (3) Result: Outcome Statement #3: Ensure Alaskan children are safe.

**Target:** Implement Federal Program Improvement Plan (PIP). **Measure:** Reduction in repeat child abuse and neglect.

**Analysis of results and challenges:** In September 2003, OCS began operating under a program improvement plan (PIP) developed in response to findings of the federal Child and Family Services Review. A major focus of the PIP is to improve the safety of children including reducing repeat child abuse and neglect. Goals include reducing the recurrence of maltreatment, reducing the incidence of maltreatment by out-of-home care providers, establishing sufficient staffing levels to meet national caseload standards, and increasing services to families.

### (4) Result: Outcome Statement #4: Assist low income Alaskans to become as economically self-sufficient as possible.

**Target:** Increase # of Alaskans living self-sufficiently by 10%.

Measure: Rate of change in self-sufficient individuals.

Rate of change in self sufficient individuals

| Year | September | December | March | June | YTD Total |
|------|-----------|----------|-------|------|-----------|
| 2001 | -16%      | 6%       | 4%    | 3%   | -2%       |
| 2002 | -1%       | -11%     | -14%  | -13% | -9%       |
| 2003 | -12%      |          |       |      |           |

**Analysis of results and challenges:** The goal is for clients to move off of Temporary Assistance with more income than they received while on the program, and for those clients to stay employed with sufficient earnings to stay off the program.

As the caseload declines, those adults with more significant barriers to employment make up a higher percentage of the caseload. Therefore, with a declining caseload, it becomes more difficult to achieve higher percentages of families becoming self-sufficient.

The rate of change is calculated for the number of families or individuals receiving benefits compared to the same time period the previous year. Thus September of 2002 had a 1% decline in the caseload compared to September of 2001. The YTD column compares the average annual caseload to the prior year caseload.

## (5) Result: Outcome #5: Keep children with mental health issues close to their community support networks.

Target: Reduce % of children sent out-of-state for residential services.

Measure: % of children in out-of-state residential care.

### (1) Strategy: Strategy #1: Increase federal collections

**Target:** Percentage federal collection increases **Measure:** Percentage of federal collections

% of Federal Collections

| Year |   |   |   |   | YTD Total |
|------|---|---|---|---|-----------|
| 2002 | 0 | 0 | 0 | 0 | 51.4%     |
| 2003 | 0 | 0 | 0 | 0 | 53.6%     |
| 2004 | 0 | 0 | 0 | 0 | 54.5%     |

Analysis of results and challenges: Federal collections have increased every year.

### (2) Strategy: Strategy #2: Ensure that all 2 year olds who are fully immunized.

**Target:** 80% of all 2 year olds who are fully immunized. **Measure:** % of all 2 year olds who are fully immunized.

% of 2-vear olds fully immunized

| Year | Annual |   |   |   | YTD Total |
|------|--------|---|---|---|-----------|
| 1998 | 81.3%  | 0 | 0 | 0 | 0         |
| 1999 | 80.1%  | 0 | 0 | 0 | 0         |
| 2000 | 77.0%  | 0 | 0 | 0 | 0         |
| 2001 | 74.1%  | 0 | 0 | 0 | 0         |
| 2002 | 78.3%  | 0 | 0 | 0 | 0         |

**Analysis of results and challenges:** In 2002, 78.3% of Alaska two year olds had completed their basic vaccine series, a percentage that slightly exceeded the national average of 75.5%.

### (3) Strategy: Strategy #3: Improve timeliness of investigations of harm.

**Target:** Reduce recurrence of maltreatment to 22% or less by December 2004.

**Measure:** Of all children associated with a substantiated or unconfirmed finding of maltreatment during the first six months of the preceding calendar year, what percentage had another substantiated or unconfirmed finding of maltreatment within six months.

% of children with recurrence of Maltreatment by Calendar Year.

| Year |   |   |   | YTD Total |
|------|---|---|---|-----------|
| 1998 |   |   |   | 23.2%     |
| 1999 |   |   |   | 26.4%     |
| 2000 |   |   |   | 23.6%     |
| 2001 |   |   |   | 24.3%     |
| 2002 | 0 | 0 | 0 | Pending   |

Analysis of results and challenges: Alaska has a high rate of recurrence of maltreatment. In September 2003, OCS began operating under a program improvement plan, one aim of which is to reduce recurrence of maltreatment. As part of this plan, the agency is reviewing its Structured Decision Making tool to see if changes are needed to better identify the risk of recurrence and provide more timely intervention. OCS is coordinating with the foster parent service agencies and the courts to improve training, with the Family Services Training Academy to research issues related to substance abuse, and with communities and other partners to improve the availability and accessibility of services. The agency continues to work to improve data quality and consistency in classifying and recording reports of harm and in timely entry of investigation outcomes to reduce data errors that lead to an over count of recurrence.

### (4) Strategy: Strategy #4: Increase the % of temporary assistance families who leave the program with earnings and do not return for 6 months.

**Target:** 90% of temporary assistance families leave with earnings and do not return for 6 months. **Measure:** % of families that leave temporary assistance with earned income and do not return for 6 months.

% of Temporary Assistance Families Who Leave the Program with Earnings and Do Not Return for 6 Months

| Year | Quarter 1 | Quarter 2 | Quarter 3 | Quarter 4 | YTD Total |
|------|-----------|-----------|-----------|-----------|-----------|
| 2002 | 83%       | 83%       | 81%       | 81%       | 81%       |
| 2003 | 85%       | 86%       | 85%       | 84%       | 84%       |
| 2004 | 90%       | 0         | 0         | 0         | 90%       |

**Analysis of results and challenges:** The goal is for clients to move off of Temporary Assistance with more income than they received while on the program, and for those clients to stay employed with sufficient earnings to stay off the program. The measurement ties in job retention, since retaining employment is directly related to remaining off Temporary Assistance.

The Division provides childcare and supportive services to support employed families during the transition to self-sufficiency. Supportive services include case management support to continue coaching the employed client during this vulnerable period.

### (5) Strategy: Strategy #5: Implement "Bring the Kids Home"

Target: Reduce kids in out-of-state residential services by 25% annually over the next four years.

Measure: # of kids in out-of-state residential care in FY04 compared to FY05

**Analysis of results and challenges:** This new measure is proposed for FY05, with data collection to begin in the first quarter.

### **Key Department Challenges**

A major reorganization of the Alaska Department of Health & Social Services was initiated this past year. The new organizational structure, designed to maximize federal funding for services, is largely in place. However, much work remains to be done to optimize the benefits of the new structure. The Commissioner's Office will take the lead role in assuring that intra-departmental and inter-departmental activities are planned and executed in a manner that will maximize the generation of federal and other non-State revenues. Quality control and program review activities identified during the current year will be put in place and additional quality assurance measures will be identified.

Continue to make progress on projects:

- Plan for and develop in-state residential capacity for children and youth with an emphasis on returning to Alaska children in out-of-state placements.
- Take advantage of Medicaid refinancing opportunities with a focus on maximizing federal financial participation through regional tribal health corporations.
- Implement additional Medicaid cost containment activities including a preferred drug list program.
- Support implementation of the Office of Children's Services Program Improvement Plan (PIP)
- Implement the new Medicaid fraud and abuse statute increasing the number of audits and the recovery of funds.
- Expand the department's partnership with the Denali Commission to improve the State's health care infrastructure in the areas of primary care, behavioral health, and long-term care.
- Foster the integration of substance abuse and mental health programs at the community level throughout the state.
- Support multi-department initiatives to achieve greater efficiency and improved service in administrative support functions including human relations and information technology.
- Identify and implement opportunities for increased collaboration with faith-based organizations.

### Significant Changes in Results to be Delivered in FY2005

A major reorganization of the Alaska Department of Health & Social was initiated this past year. The new organizational structure, designed to maximize federal funding for services, is largely in place. The FY05 Budget reflects ongoing efforts to insure intra- and inter-departmental activities are planned and executed in a manner that will maximize the generation of federal and other non-State revenues. Quality control and program review activities identified during the current year will be put in place and additional quality assurance measures will be identified.

The principles of the department are to promote self sufficiency and healthy behaviors, provide a safety net, and promote access to healthcare. In order to maintain a level of direct services, it is necessary for the department to maximize outside sources of funding to accommodate the growth in Medicaid and maintain direct service grants.

#### FY05 Budget

Overall, the General Fund DHSS budget for FY05 is less than FY04 Authorized, which has not occurred in many years. The overall reduction is a combination of the following five summary categories of change:

- <u>Increases to Maintain Services:</u> DHSS has many caseload driven programs, where in order to maintain the same service level general fund investment is required. Over \$64 million in general funds is required in FY05 to maintain services. These programs include: Medicaid (all areas), Adult Public Assistance, and the Subsidized Adoption and Guardianship program. In addition, several programs have adjustments due to changes in revenue, including: Pioneer Homes, API Community services, Medicaid for FairShare, Medicaid for FMAP and second year of fiscal notes.
- <u>Program Enhancements:</u> Two key programs will received enhanced funding in FY05, including Child Protection to implement the Performance Improvement Plan and Juvenile Justice to migrate to a focus on community programs.
- <u>Refinancing:</u> One budget technique used to reduce the dependence on general fund for programs in DHSS is to "refinance" the general fund or to use federal or other funds to replace general funds. In the FY05 budget over \$19 million of refinancing is proposed for a whole variety of programs, including: Medicaid (all areas), API, Foster Care, Residential Care, Infant Learning, McLaughlin Youth Center Medical costs, Pioneer Homes, the Alaska Temporary Assistance Program, Adult Public Assistance, and Departmental Support Services.
- <u>Efficiencies</u>: In the FY05 budget there is almost \$23 million in general fund savings attributable to administrative and management efficiencies in all areas of the department.
- <u>Cost Containment:</u> In the FY05 budget there is almost \$24 million in general fund savings from continuing or implementing new cost containment initiatives. Most of the cost containment initiatives are in the various Medicaid programs.

Additionally, the following consolidation or efficiency proposals have been included:

### **Consolidation of Information Technology Resources**

In FY2005, DHSS is integrating and consolidating all information technology services within the department. This is a large task as there are a number and diversity of programs within the department. These programs are continuously changing and the needs for technology are everchanging. The integration will result in higher level and broader department services and will have a cost savings.

Prior to July 1, 2004, all IT programs and services will be analyzed and reviewed for more efficient deployment for the benefit of the entire department. The department IT Plan is the blueprint for this re-engineering project.

#### **Grants and Contracts consolidation**

This proposal will consolidate the department's grants administration into a single focus. Once the consolidation occurs there will likely be savings which will go towards the overall RDU total target.

As of January 1, 2004, the Department of Health and Social Services is integrating the Grants and Professional Service Contract Administration into one component. This integration will improve customer service for grantees and vendors; promote uniformity and consistency; consolidate administrative expertise into one place; eliminate redundant work and review process; and reduce the hours program staff devote to administration so that work can be refocused on tasks related to their areas of expertise.

### **Consolidation of Certification and Licensing of Facilities**

As part of the Department's efforts to streamline services, authority for the certification, licensing, and monitoring of facilities that provide care to the elderly and/or disabled is being centralized in the Division of Public Health.

### **Major Department Accomplishments in 2003**

- Began implementation of Executive Order 108 restructuring the department to improve program efficiency and maximize federal and other non-state revenue sources for health care and social services.
- Supported passage and began implementation of a package of Medicaid-related statutory changes designed to
  provide greater flexibility and additional opportunities to contain health care costs with minimal impact on Medicaid
  eligibility or services provided.
- Facilitated discussions between tribal health corporations and other health care providers to identify opportunities to collaborate on projects designed to control state Medicaid costs and provide improved services.
- Obtained federal approval of the Office of Children's Services Program Improvement Plan.
- Implemented the Alaska Senior Assistance Program to continue to provide adequate cash assistance for lowincome Alaskan seniors.
- Implemented the DHSS Faith Based and Community Initiatives Coordinator and Division Liaisons with the Lt. Governor's FBCI Task Force.
- Implemented new system improvement agenda to improve results and efficiencies on all points of the Juvenile Justice continuum.
- Streamlined waiver approval process for long-term care program.
- Achieved compliance with federal SYNAR requirements for illegal sales of tobacco to youth.
- Met and exceeded FFY2003 federally mandated work participation rates.
- Public Assistance fraud investigative efforts resulted in cost-avoidance, direct savings, and administratively and criminally established overpayments totalling over \$2.3 million.

### **Prioritization of Agency Programs**

(Statutory Reference AS 37.07.050(a)(13))

Prioritization of programs were based on importance to:

- Providing direct services to clients.
- Protection of vulnerable populations
- Areas where State Government is ultimately responsibile for providing service.
- Relevance of the activity to the department's mission

- 1. Front Line Social Workers
- 2. Alaska Psychiatric Institute
- 3. Protection, Community Services and Administration
- 4. Epidemiology
- 5. Alaska Temporary Assistance Program
- 6. Tribal Assistance Programs
- 7. Pioneer Homes
- 8. HCS Medicaid Services
- 9. Senior and Disabilities Medicaid Services
- 10. Behavioral Health Medicaid Services
- 11. Children's Medicaid Services
- 12. Probation Services
- 13. Adult Public Assistance
- 14. Community Developmental Disabilities Grants
- 15. Foster Care Base Rate
- 16. Foster Care Augmented Rate
- 17. Foster Care Special Need
- 18. McLaughlin Youth Center
- 19. Delinquency Prevention
- 20. Fairbanks Youth Facility
- 21. Johnson Youth Center
- 22. Bethel Youth Facility
- 23. Nome Youth Facility
- 24. Ketchikan Regional Youth Facility
- 25. Mat-Su Youth Facility
- 26. Kenai Peninsula Youth Facility
- 27. Public Health Laboratories
- 28. Residential Child Care
- 29. Psychiatric Emergency Services
- 30. Behavioral Health Grants
- 31. Rural Services and Suicide Prevention
- 32. Services for Severely Emotionally Disturbed Youth
- 33. AK Fetal Alcohol Syndrome Program
- 34. Services to the Seriously Mentally III
- 35. Catastrophic and Chronic Illness Assistance
- 36. Nursing
- 37. Subsidized Adoptions & Guardianship
- 38. Child Care Benefits
- 39. Work Services
- 40. Energy Assistance Program
